GENERAL INFORMATION

SIMPLWINDOWS NAME:	Haivision_Makito-X_Controller_Recorder-v1.5
CATEGORY:	Transport Decks
GENERAL NOTES:	This module will control all streams recorders for a Haivision Makito-X Encoder. True feedback is provided for all functions. When any command is sent to the encoder, it will acknowledge the command and respond with a transport control state. No commands will be processed to the encoder until the unit is properly logged in. The module's default parameters are the default "ship-with" values that Haivision ships their units with. If any parameters are changed on the unit, be SURE to update the Connectors username/password/hostname to reflect these changes. The Controllers Encoder ID parameter is the number of the Recorder stream to be controlled.
