GENERAL INFORMATION

SIMPLWINDOWS NAME:	Theta Digital Compli Disk Player
CATEGORY:	DVD/CD Player
VERSION:	1.00
SUMMARY:	This module controls all of the features of the Theta Digital Compli Universal Disk Player.
GENERAL NOTES:	This module controls all of the features of the Theta Digital Compli Universal Disk Player. It has a built in serial queue that does not block commands but rather spaces them out so that commands are sent slow enough to prevent the units sensitivity to high serial traffic. At the time of module development, the only feedback avail was for power only.
